What is the Speakers Network?

The Speakers Network falls under the scope of the Public Relations and Community Outreach Committee and its purpose is to educate various audiences about the Apartment industry. Share your knowledge and experience with schools, businesses, and civic organizations. Volunteers are trained and speak from two modules: "Renting Your First Apartment" targeted to high school seniors and college students; and (2) "Careers in Property Management" targeted to college students and people in job transitions.

As part of the PR Committee's Hispanic Outreach initiative, we are especially in need of members who are bilingual as we have partnered with PROfamilia, (an agency of Wake County Health & Human Services) to present the two modules to their client base.

What is the Commitment?

(1) Complete the Interest Form (2) Attend the Orientation Session to learn how to present the modules, and (3) commit to 1-2 speaking engagements in a 6-month period.
